Component Pricing

COMPONENT PRICING

This IDEON Price Guide features component pricing. Component pricing puts you in the driver's seat: it is designed to show you exactly what you are paying for.

The following pages provide the specific product information that will help you price and create a custom model number for your chair, settee, sofa, ottoman or bench.

Begin at step 1 by choosing a model. Work your way through the worksheet by choosing arm, back, valance and foot styles. Select the accessories and textiles you desire (sequence and number of steps will vary depending on product).

The choices you make will either add to or subtract from the prominently listed base price. Standard features add nothing to the base price, and some choices are even a deduction! At the Final Price Calculation step simply enter the item codes and add up the pricing.

Specify the quantity desired and your requested delivery date and fax the worksheet along with your P.O. number and contact information to (714) 995-4855 or email to purchaseorder@exemplis.com. Or transfer the information to your own company's order form.

All products, prices and codes are subject to change. For the most current information see the IDEON Price Guide online at ideondesign.com.

Welcome to the new IDEON Price Guide 2015!

AVIERA LINKING TABLES

Tables are like bridges joining chairs and multi-seating elements. Connect like items together or mix it up. For instance, a table can link to a Guest or Patient chair on one side and a Pre-Configured, Freespan, Start or End element on the other. In a Start/Center/End configuration a table must connect to either a Start or an End. End tables have two legs, and 90° radius and square tables have one leg.

HIGH TRAFFIC. LOW STRESS.
